
Golden Blend Llama and Alpaca Supplement

Golden Blend Llama and Alpaca Supplement

Our Formula - Several Universities and Veterinarians have researched llamas and alpacas to determine their nutritional needs. Through this research we now can understand what the llama and alpaca producers need to maintain a healthy herd and produce top quality crias. Since llamas and alpacas are raised primarily for their fiber, it makes sense that they be on a dietary plan that will ensure that the fiber meets all the required standards for the producers. With this in mind, Custom Milling sought the help of nutritionist's and universities and looked at the other llama and alpaca products that were on the market before developing our formula.

Quality and Freshness - At Custom Milling we know how important quality is to our customers. Golden Blend Llama and Alpaca Feed is an all grain feed made with only natural grain products. Since it contains no animal by products or fillers, your animals digestive system is able to utilize a large portion of the nutrients contained in the feed. The grain products that are added to the feed are ordered every week and the feed is made only when the customer orders it, so you can be assured of our product's freshness. Custom Milling also uses a special filter and sifting process to alleviate as much dust as possible from entering the bag. Most large mills leave out this process to save time and money.

Analysis

- Crude Protein min 14.00%
 - Crude fat min 2.75%
 - Crude fiber max 12.00%
 - Calcium min 2.00% - max 2.50%
 - Phosphorus min 1.90%
 - Salt (NaCl) min 0.50% - max 1.00%
 - Selenium (Se) Min 3.0 PPM
 - Vitamin A min 30,000 IU/LB
 - Thiamine min 300 mg/lb
- Ingredients: Processed Grain By-Products, Grain Products, Forage Products, Dicalcium Phosphate, Monocalcium Phosphate, Calcium Carbonate, Salt, DL-Methionine, Potassium Chloride, Potassium Sulfate, Magnesium Sulfate, Magnesium Oxide, Ferrous Sulfate, Zinc Oxide, Thiamine Mono nitrate, Manganous Oxide, Sodium Selenite, Ethylene diamine Dihydrochloride, Cobalt Carbonate, Vitamin A Supplement, Cholecalciferol (source of Vitamin D-3), Vitamin E Supplement.

Feeding Directions:

Llamas: Feed 1 lb - 1 1/2 lbs per 100 lbs body weight per day

Growing Alpacas: Feed 1/2 lb - 3/4 lb per 100 lbs body weight per day

Pregnant and Lactating Females: Increase feed by 10%

Adult Males and Open Females: 1/4 lb - 1/3 lb per 100 lbs body weight per day.

Important: It is important not to over feed. Decrease feed amounts for overweight animals.

Provide salt-free choice. Always provide your animal with plenty of fresh, clean water.
